

Belt Drive Cover Set

*With Stainless Steel
Hardware*

**3 Piece Cover Set,
Front Pulley Cover
Rear Clutch Hub Cover
Middle Outer Cover**

Billet Aluminum

Clutch Hub Cover Has Machined Holes To Ventilate Clutch Pack.

These covers are machined from billet bar stock and will not throw pulleys out of balance as do spun aluminum covers.

Use covers as a template to transfer punch holes to front pulley and clutch hub. Use # 25 drill and # 10-24 Tap. Shorten the two hex aluminum primo standoffs 3/16" .
